

JOB POSTING

Job Title: Water Services/Repair Operator
Job No: 24-04-02
Department: Customer Service
Reports To: Customer Service Manager
Classification: Non-Exempt
Grade Scale: GS-06 **Starting Pay:** \$16.27/hr.
Posting Dates: 04-02-2024 to 04-09-2024

JOB SUMMARY

Responsible for performing a variety of skilled and semi-skilled work involved in the operation of water distribution and production. As a member of the Water Distribution Crew, the Water Services/Repair Operator will also inspect water system construction for compliance codes, plans, and District specifications and standards, coordinate new line pressure testing, and review plans, specifications, and calculations.

ESSENTIAL DUTIES AND RESPONSIBILITIES *(including but not limited to)*

- Performs all related processes and procedures of water maintenance infrastructure and repair for meter replacement.
- Conducts all aspects of job planning for Capital Improvement Projects and emergency repairs.
- Participates in the more complex and difficult work of field crews responsible for performing a variety of skilled and semi-skilled work involved in operating, maintaining, installing, and repairing the District's water distribution infrastructure to ensure an uninterrupted supply of quality potable water.
- Ensures work-in-progress complies with work safety regulations and construction materials, lines, valves, fire hydrants, connections, joints, and tie-ins are acceptable for work.
- Estimates time, materials, and equipment required for jobs assigned and coordinates requisitions of materials as required.
- Participates in the use, care, and operations of assigned equipment including backhoes, front loaders, forklifts, jack hammers, pavement saws, cutting torches, compressors, compactors, pneumatic tools, pumps, and hand and power tools; oversees and participates in the loading and unloading of vehicles and equipment.
- Participates in the performance of emergency repairs; responds to emergency calls at irregular hours and participates in mandatory stand-by.

REQUIRED SKILLS, EDUCATION & EXPERIENCE

JOB POSTING

- High School Diploma or GED supplemented by vocation/technical training in water utility science, water distribution infrastructure maintenance and repair practices, mechanical maintenance, and repair practices and/or construction inspection.
- Three (3) years of experience in operation, maintenance, installation, and repair of water distribution and/or water production infrastructure.
- CSI (Customer Service Inspection) or be able to obtain within 2 years of appointment; or Water Distribution Certificate (TCEQ) or be able to obtain within 2 years of appointment.
- Texas Class “C” Driver’s License and must have an acceptable driving record.
- Traffic control certification recognized by TxDOT is desirable.
