The $18.35 monthly solid waste fee provides reliable residential garbage service at an Affordable monthly fee while helping maintain **water and wastewater rates as low as possible.**

Services are available within the **City of Socorro, City of Clint, City of San Elizario, and eligible areas of El Paso County within the Lower Valley Water District service area.**

Included Services

- **Help Maintain Affordable Water and Wastewater rates**
- **Weekly Residential Garbage Pickup** — Four curbside pickups per month on a consistent schedule.
- **One Bulk Pickup Per Year** — For furniture, appliances, and other approved large household items.
- **Five Community Cleanup Events Per Year** — Residents can dispose of approved household debris, furniture, and yard waste.
- **Five Tire Amnesty Events Per Year** — Convenient tire disposal to help reduce illegal dumping and mosquito-breeding areas.
- **Missed-Pickup Service Guarantee** — Easy reporting by phone or online, with a defined response-time standard.
- **Illegal Dumping Assistance** — Contractor support in identifying and cleaning up illegal dumping sites.
- **Storm and Emergency Cleanup** — Additional assistance following major storms, flooding, and other emergencies.
- **Fire-Damage Assistance** — Containers provided at no cost, when eligible, to help residents remove fire-damaged materials.
- **Senior and Disability Assistance** — Special cart-to-curb assistance for qualifying residents who cannot safely move their carts.
- **Extra Cart Option** — Residents may rent an additional garbage cart for an additional fee.
- **Cart Repair and Replacement** — Repair or replacement of damaged carts, wheels, and lids when damage is caused by normal collection operations.
- **Resident Notifications** — Optional text or email alerts for collection schedules, delays, severe weather, cleanup events, and other service updates.

Goal

The goal is to provide **reliable, affordable, and community-focused solid waste service** while keeping the monthly cost at **$18.35** and helping maintain affordable water and wastewater rates low.
